PROFESSIONAL SUMMARY

Results-driven HNDIT final-year student with hands-on experience in full-stack web development using the MERN stack, complemented by a 6-month banking internship at Bank of Ceylon. Adept at building responsive, user-centric applications and RESTful APIs. Brings a practical blend of software development, UI/UX design, and digital marketing knowledge, with a keen ability to deliver clean, scalable solutions under real-world conditions.

EDUCATION

Higher National Diploma in Information Technology (HNDIT) · ATI – Dehiwala, SLIATE 2024 – Aug 2026 (Expected)

- Focus areas: Software Development, Web Technologies & Database Systems
- Final semester — actively completing capstone-level projects

Advance Level (Bio System Technology) · Puttalam Zahira National College 2020 – 2022

INTERNSHIP & TRAINING

School Leaver Training — IT & Banking Operations · Bank of Ceylon (BOC)-2024 · 6 Months

- Gained hands-on exposure to core banking operations, customer service workflows, and data management in a professional banking environment.
- Developed professional workplace skills including accuracy, confidentiality, teamwork, and time management in a regulated institution.
- Observed and supported IT-related administrative processes, reinforcing understanding of real-world data handling and record-keeping systems.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, Responsive Web Design
Backend	Node.js, Express.js, RESTful API Design
Frontend FW	React.js (MERN Stack)
Databases	MongoDB Atlas, MySQL
Tools	Git, GitHub, Figma, Adobe Photoshop
Marketing	Off-Page SEO, Backlink Building, Search Engine Optimization
Languages	Tamil (Native) · English (Fluent) · Sinhala (Intermediate)

PROJECTS

MockMate — AI-Powered Mock Interview Platform · MERN Stack

- Developed a full-stack AI interview practice platform enabling users to select interview categories (Frontend, Backend, HR, UI/UX, Full Stack, Internship) and receive dynamically generated interview questions.
- Integrated Anthropic Claude API for real-time AI coaching, answer evaluation, and personalized feedback covering communication, technical clarity, confidence, and grammar dimensions.
- Implemented Web Speech API for voice-based answer input, a countdown timer system with auto-progression, and an animated score dashboard using React (Richards-style SVG rings and progress bars).

- Built JWT-authenticated RESTful APIs with Node.js & Express.js; persisted interview history and scores in MongoDB Atlas for progress tracking across sessions.
- Engineered a responsive React.js SPA with dark-theme UI, smooth page transitions, and multi-screen navigation (Home, Login, Dashboard, Live Interview, Results, History).

Food Donation & Redistribution System · MERN Stack

- Architected and deployed a full-stack web platform connecting food donors with recipients, featuring donor registration, real-time status tracking, and request management.
- Developed secure RESTful APIs with Node.js & Express.js; integrated JWT-based authentication and MongoDB Atlas for scalable data storage.
- Built a fully responsive React.js frontend optimized for seamless cross-device user experience.

Tour & Travel Website · HTML · CSS · JavaScript · Bootstrap

- Designed and developed a fully responsive multi pages travel website smooth navigation, interface UI components, destination showcase, and mobile-first layout optimized for seamless cross device experience.

Food Ordering Platform with Database · HTML · CSS · JavaScript · MySQL

- Built a dynamic food ordering system integrated with MySQL for live menu management, order placement, and order history tracking.

Inventory Management System · Java · MySQL

- Developed a desktop application for stock and product management with full CRUD operations and relational database integration.

Ice Cream Shop Management System · Java · MySQL

- Created an order, billing, and inventory management application with seamless database-backed transaction handling.

Cafe Management System · Java · MySQL

- Build a compressive café management application covering ordering processing,billing,menu management and inventory tracking with full database backend transaction handling.

CERTIFICATIONS

Web Design for Beginners · University of Moratuwa · 2025

User Interface Design with Figma · Alison · 2025

Introduction to Modern AI · Casio Networking Academy · 2026

CORE COMPETENCIES

Problem-Solving · Analytical Thinking · Team Collaboration · Adaptability · Effective Communication · Quick Learner · Attention to Detail
